

CALCULATION OF 2007 SUMMER SCHOOL STATE REIMBURSEMENT

The following calculation should be used for estimating miscellaneous revenue from the state for summer school reimbursement. This form is for use at the local level and does not need to be sent to the state. Instructional salary costs are limited to salaries for classroom teachers of approved courses, and to salaries for instructional assistants (aides) used in those classes.

1. Category 1, summer school classroom instructional salaries	\$ _____
2. Allowable cost multiplier	1.05
3. Adjusted allowable instruction salaries (line 1 x line 2)	\$ _____
4. Estimated percentage of entitlement	50.5%
5. Anticipated Category 1 reimbursement amount (line 3 x line 4)	\$ _____
6. Category 2, summer school classroom instructional salaries	\$ _____
7. Allowable cost multiplier	1.05
8. Adjusted allowable instruction salaries (line 6 x line 7)	\$ _____
9. Estimated percentage of entitlement	0%
10. Anticipated Category 2 reimbursement amount (line 8 x line 9)	\$ _____
11. Category 3, Enrichment and Elective Studies Summer school classroom instructional salaries	\$ _____
12. Allowable cost multiplier	1.05
13. Anticipated Category 3 reimbursement amount (line 11 x line 12)	\$ _____
14. Estimated percentage of entitlement	0%
15. Anticipated Category 3 reimbursement amount (line 13 x line 14)	\$ _____
16. Anticipated 2007 Summer School reimbursement (line 5 + line 10 + line 15)	\$ _____

NOTE: The exact percentage of entitlement will be determined when actual costs are submitted by school corporations and charter schools.
